Dear Mr. Terson,

I just wanted to take a moment to express my sincere gratitude for the fascinating internship I had at the Buffalo Grove Park District. I can't stress enough how supportive and kind the staff was during my time there. They were always eager to help me learn about the graphic design industry as well as overall life lessons. I am so thankful for all the opportunities I had to explore this marvelous field, and I appreciate the time and effort you put into me learning about it. This internship gave me an incredible chance to explore my passion and potential career in graphic design, and I'm immensely grateful for that. Sincerely,

Jake Persson

RE: NEW LIGHT ORDINANCE RECOMMENDATION

DATE: FEBRUARY 7, 2024

#### Action Requested:

Staff is recommending that we create a new ordinance to address people bringing portable lighting into parks during night hours.

If Board approves, this Ordinance will become 1.23, and all subsequent Ordinance numbers will be adjusted in the Ordinance book to maintain alphabetical order.

#### Background Information:

A resident whose property backs up to Bison Park contacted us to inform us that there have been people playing soccer in the park after dark using portable work lights. A second complaint came in about the same park location, and notification to the police was confirmed. Being that we are strategic about where we put lighting on fields and courts in smaller neighborhood parks, it is reasonable to prohibit groups of people from bringing their own lighting for the purpose of playing sports in parks that were not intended to have games or practices during night hours.

#### Proposed Ordinance:

It shall be unlawful to use or operate portable lighting on any property owned and controlled by the Park District unless a written permit from the Park District has been issued setting forth the conditions for use including the maximum allowable brightness level. For the purposes of this Ordinance, this includes any lighting device whether powered by battery or other power source.

The conditions prescribed for a portable lighting permit may be waived or modified in the case of a special Park District sponsored or co-sponsored community-wide event. Portable lighting devices may be used on any Park District property during the following hours:

- From dusk until park closure.
- See Section 1.31 Public Use, Hours for specific details on park hours.

In no case shall any portable lighting device be pointing toward homes near the Park District property line adjacent to a residential community.

Re: Extension of Camp Bus Bid

Date: February 5, 2024

#### Action Requested:

Staff is requesting that the Board approve the second, one year extension of the 2022 Camp Bus Bid to provide services for the 2024 camp season. Grand Prairie Transit, who was awarded the 2022 Camp Bus Bid, has agreed to extend the contract this summer with the same pricing as 2022.

#### History:

For the 2022 Camp Bus Bid, there was instruction provided to the bus bidders that the Park District could extend the bus bid for three additional one-year terms at the same price if the contractor agrees to extend or renew the agreement at the same price. Grand Prairie Transit agreed to this extension at the same price for this summer's camp season.

The Camp team has been very pleased with their working relationship with Grand Prairie Transit. Attached you will find a copy of the 2022 Bus Bidder Instructions, the original bid submission by Grand Prairie Transit, and the email agreement from Grand Prairie to extend the bid for another one-year term.

# Memo

TO: PARK BOARD OF COMMISSIONERS

ERIKA STROJINC, EXECUTIVE DIRECTOR

FROM: LAURIE HOFFMAN, PLANNING AND DEVELOPMENT MANAGER

RE: PARKCHESTER PARK OSLAD BID – PARK RENOVATION

DATE: FEBRUARY 7, 2024

### Action Requested:

Staff is recommending that the Board accept and award the bid for the Parkchester Park OSLAD (Park Renovation) development to Schroeder Asphalt Services out of Marengo, Illinois.

# Background Information:

The Parkchester Park project started in 2022 with design services and public input meetings, and was awarded an Open Space Land Acquisition Development (OSLAD) grant in 2023 to assist with the associated costs of the project.

The scope of work for the Parkchester Park includes:

- Demolition of the existing baseball field
- Renovation and relocation of the playground with new rubber surfacing
- New pickleball court, tennis court, and full-size basketball court
- Increase the size of the existing pond, and provide two fish outcroppings
- Expand the existing walking and bike paths throughout the site
- Create a tree walk with educational signage
- Provide painted games on the sidewalk around the playground for increased visitor interaction
- Provide a parking lot for access to the park

Due to the installation of a new parking lot, a new right-only turn lane will be added to Weiland Road. Because of the unique nature of installing a turn lane that connects with an existing road, the District chose to split the Parkchester Park project into two bids. The first bid was for the park renovation and the second bid was for the Weiland Road turn lane.

This memo is in reference to the bid for park renovation only.

# Bid Results:

The bid for the Parkchester Park (park renovation) development was opened electronically on January 31, 2024, around 11:00 am. Five general contractors submitted bids. Enclosed is the bid tabulation.

General Contractor	Base Bid Amount
Schroeder Asphalt	\$1,231,051.50
Copenhaver	\$1,366,471.00
Hacienda Landscaping	\$1,404852.00
Innovation Landscape, Inc.	\$1,428,283.31
All-Bry	\$1,892,001.85

### Budget Information & Recommendation:

The Park District has worked with the lowest bidder, Schroeder Asphalt, before. Most recently, Schroeder was the contractor awarded work at Drazner and Willow Stream Park (2022).

The assumed budget for this project from the last capital plan presented to the Board (2023) was lower than the bid results. A breakdown of total anticipated revenues and expenses is attached for reference.

A scoping review was performed on February 1, 2024 with lowest bidder, Schroeder Asphalt. Three satisfactory references were received. There was no evidence found that would disqualify this contractor.

Therefore, it is staff's recommendation to award the Parkchester Park renovation contract to Schroeder Asphalt for their base bid of \$1,231,051.50.

# Memo

TO: PARK BOARD OF COMMISSIONERS

ERIKA STROJINC, EXECUTIVE DIRECTOR

FROM: LAURIE HOFFMAN, PLANNING AND DEVELOPMENT MANAGER
RE: PARKCHESTER PARK OSLAD BID – WEILAND ROAD IMPROVEMENTS

DATE: FEBRUARY 7, 2024

### Action Requested:

Staff is recommending that the Board accept and award the bid for the Parkchester Park OSLAD (Weiland Road improvements) to A Lamp Concrete Contractors Inc. out of Schaumburg, Illinois.

## Background Information:

The Parkchester Park project started in 2022 with design services and public input meetings, and was awarded an Open Space Land Acquisition Development (OSLAD) grant in 2023 to assist with the associated costs of the project.

The scope of work for the Parkchester Park includes:

- Demolition of the existing baseball field
- Renovation and relocation of the playground with new rubber surfacing
- New pickleball court, tennis court, and full-size basketball court
- Increase the size of the existing pond, and provide two fish outcroppings
- Expand the existing walking and bike paths throughout the site
- Create a tree walk with educational signage
- Provide painted games on the sidewalk around the playground for increased visitor interaction
- Provide a parking lot for access to the park

Due to the installation of a new parking lot, a new right-only turn lane will be added to Weiland Road. Because of the unique nature of installing a turn lane that connects with an existing road, the District chose to split the Parkchester Park project into two bids. The first bid was for the park renovation and the second bid was for the Weiland Road turn lane.

This memo is in reference to the bid for the Weiland Road turn lane.

### Bid Results:

The bid for the Weiland Road Improvements was opened electronically on January 31, 2024, around 11:30 am. Five general contractors submitted bids. Enclosed is the bid tabulation.

General Contractor	Base Bid Amount
Chicagoland Paving	\$250,000.00
A Lamp Concrete	\$289,945.28
Berger Contractors	\$294,304.70
Schroeder Asphalt	\$305,708.00
DK Contractors	\$314,322.00

Upon review, the bid packet submitted by Chicagoland Paving was found to be missing the required documents. The next lowest bidder was A Lamp Concrete Contractors, Inc.

# Budget Information & Recommendation:

The assumed budget for this project from the last capital plan presented to the Board (2023) was lower than the bid results. A breakdown of total anticipated revenues and expenses is attached for reference.

The Park District has not worked with A Lamp Concrete Contractors, Inc. before. A scoping review was performed on February 7, 2024 with them and we have reviewed their qualifications. Three satisfactory references were received. We have found no evidence which would disqualify this contractor.

Therefore, it is staff's recommendation to award the Weiland Road Improvement project contract to A Lamp Contractors Inc. for their base bid of \$289,945.28.

RE: ICE RINK INFORMATION

DATE: FEBRUARY 5, 2024

## Background Information:

The Parks Department has built and maintained an ice rink at the Willow Stream south parking lot yearly until 2023 when the lot was being reconstructed. Building and maintaining the ice rink takes a great deal of time and resources to ensure that it safe and usable. Because of investment and the increasingly milder winters, staff were instructed to gather information on the maintenance and labor to upkeep the rink (see below).

<u>Building</u>: The process of building the rink is not strenuous, but takes time. This includes covering the storm sewer drains (to prevent the water from running down the storm sewers), barricading off the entire area, and then beginning to flood the area with water. Once fully flooded, the process moves into the maintenance phase.

<u>Maintenance</u>: Once open for the season, two staff work on the ice rink daily, for roughly 16 hours a week. Maintenance includes: cleaning off the rink, adding water to smooth the ice, cleaning up the surrounding area of debris, and handling any vandalism that may arise. Additionally, if it snows, staff must also brush/remove the snow off the rink. Depending upon the snowfall, it can take anywhere from 2-5 hours per week.

<u>Water Usage</u>: It takes 45,000 gallons to fill the area used for the ice rink. The Village of Buffalo Grove charges \$7.50 per 1,000 gallons of water used. Besides the initial water usage, staff have to maintain the rink once it is up and running. They estimate that they use between 4,000 and 8,000 gallons of water per week to maintain proper levels of ice. The number of gallons vary due to a number of different issues including: amount of usage, vandalism (ex. patrons cracking the ice and taking chunks out of the ice), weather, and absorption into the ground.

<u>Ice Rink Schedule</u>: Staff work on the rink from early to mid-December up to early March (weather pending). With how challenging the weather has been in the last 10 years, the schedule of the ice rink has been sporadic. If temperatures are above freezing for longer than a week, there is a great

chance that we will lose the entire ice rink, and because of the resources needed to rebuild, we do not attempt to rebuild the rink once the initial rink is "lost."

<u>Cost of Ice Rink</u>: The below chart shows the approximate cost of building and maintaining the ice rink during "ideal" weather conditions.

TASK	#	Costs	TOTAL COST
Maintenance (weekly) (staff 1)	16 hours	\$44.92/hour	\$718.72
Maintenance (weekly) (staff 2)	16 hours	\$48.10/hour	\$769.60
Maintenance (weekly water)	6,000 gallons*	\$7.50/1,000	\$45.00
Maintenance (snow removal) (staff 2)	3 hours	\$48.10/hour	\$144.30
		WEEKLY TOTAL	\$1,6 <i>77</i> .62
Building (flooding lot)	45,000 gallons	\$7.50/1,000	\$337.50
		12 WEEK TOTAL	\$20,468.94

<sup>\*</sup>Average is 4,000 - 8,000 gallons per week, so 6,000 was used for estimate.

<u>Ice Rink Availability</u>: The chart below shows how many days the ice rink was open over the last 10 years.

#### Summary and Recommendation:

As demonstrated, the building and maintenance of an ice rink is costly without a large return on investment. Additionally, in consulting with civil engineers, turning a parking lot into an ice rink has negative impacts on the infrastructure's lifespan. Standing water seeps into the asphalt and into the base which degrades over time. Once degradation begins, the pavement loses its structural support which results in potholes, cracking, indentations, and low spots. Since the District just invested \$953,718 (sans permit costs) into the reconstruction of the lot, it is my recommendation that we no longer continue with the practice of building and maintaining an ice rink on the Willow Stream parking lot.
